

CADE MERRITT

Bleecker St. | New York NY |(646) 644-3537| jobhuntcmerritt@gmail.com

My objective;

continuing to educate myself in order to facilitate a career change in to the tech industry. I always have loved all things tech, well except when I can't make it work or fix it. (Not very often) Then I do believe continuing in the direction of cyber security. Even at the speed of tech I don't see the value or need for this sector changing.
